

MULTILOAD

8-Stage Battery Charger

Features

Fully Automatic Battery Charger

The Ective Multiload charger protects your battery from being overcharged so you can leave the charger connected to the battery indefinitely.

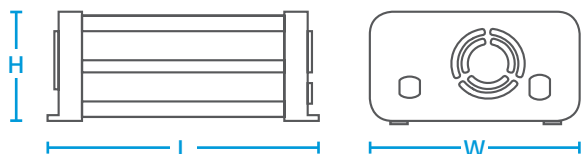

8 Charging Stages

8-stage charging is a very comprehensive and accurate charging process which gives your battery longer life and better performance compared to using conventional chargers.

Suitable for Most Battery Types:

- Gel batteries
- AGM batteries
- Wet batteries
- Calcium batteries

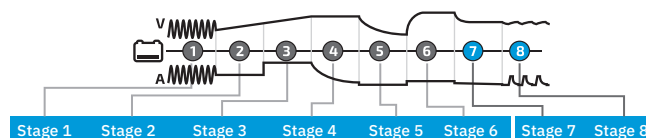

The Ective Multiload may also help restore drained and sulphated batteries.

Protective Features

- Reverse Polarity Protection
- Output Short Protection
- Non Battery Link Protection
- Disconnect Protection
- Over Voltage Protection
- Overheating Protection

Charging Stages

- | | |
|-----------------|-----------------|
| 1. Desulphation | 5. Battery Test |
| 2. Soft Start | 6. Recondition |
| 3. Bulk | 7. Float |
| 4. Absorption | 8. Pulse |

Technical Data

Model	Input Power	Output Voltage	Output Current	Dimensions (LxWxH)	Weight
Multiload 5 (12 V)	154 W	12 V	5 A	197 x 116 x 62 mm	1,05 kg
Multiload 5 (24 V)	296 W	24 V	5 A	197 x 116 x 62 mm	1,1 kg
Multiload 7	215 W	12 V	7 A	197 x 116 x 62 mm	1,05 kg
Multiload 10 (12 V)	307 W	12 V	10 A	197 x 116 x 62 mm	1,1 kg
Multiload 10 (24 V)	547 W	24 V	10 A	217 x 116 x 62 mm	1,28 kg
Multiload 12	332 W	12 V	12 A	197 x 116 x 62 mm	1,1 kg
Multiload 15	415 W	12 V	15 A	217 x 116 x 62 mm	1,28 kg
Multiload 20	554 W	12 V	20 A	217 x 116 x 62 mm	1,28 kg
